Choice Gladiolus, Dahlias and Iris

Grown and Offered for Sale by

The Kennedy Gardens

Midland, Michigan

To those of you who may not be familiar with our stock we wish to state that the growing and selling of bulbs is not a new venture with us. For six years we have shipped bulbs to all parts of the country and we have many unsolicited letters from amateur and professional growers praising the high quality of our stock. A very large proportion of our former customers reorder each year.

The present list is the result of our testing of more than 800 named varieties under various growing conditions. It is our aim to improve our list each year by adding the best of the newer varieties and by dropping those which require the best of growing conditions to produce perfect blooms.

Each year we invest several hundred dollars in new originations of the world's best hybridizers. After testing these for two years we find that most of them should never have been placed on the market at any price. We could lengthen our list by including these novelties but prefer to destroy them with hope of retaining your confidence. The few good varieties are added when we have sufficient stock.

Our judgment in the selection of varieties is indicated to some extent by the fact that our flowers won twelve first and four second prizes for us on twenty-two entries at the Michigan State Gladiolus show.

The bulbs which we offer are of our own growing and it is not our intention to purchase for resale. It is only by doing this that we can guarantee that you will receive bulbs true to name and free from disease.

All stock is offered subject to prior sale. Bulbs of some varieties are limited and early orders are desirable. We do not substitute if sold out of a variety.

SIZE OF BULBS. The standard sizes are employed in grading these bulbs according to their diameter. No. 1 bulbs are $1\frac{1}{2}$ inches or more; No. 2 bulbs, $1\frac{1}{4}$ to $1\frac{1}{2}$ inches; No. 3, 1 inch to $1\frac{1}{4}$ inches; No. 4, $\frac{3}{4}$ inch to 1 inch; No. 5, $\frac{1}{2}$ inch to $\frac{3}{4}$ inch; No. 6, $\frac{1}{2}$ inch or less. No. 1 and No. 2 bulbs produce the largest blooms; No. 3, 4 and 5 bulbs produce smaller blooms but grow into large bulbs before harvest time. No. 6 bulbs frequently bloom the first year if planted early. Small bulbs are to be preferred if bulblet increase is desired.

PRICE OF BULBS. Single bulbs will be sold at $\frac{1}{8}$ the price of 10, providing price so obtained is \$.05 or more. No single item less than \$.05 will be sold. Where available 100 bulbs will be sold for 8 times the price of 10. Price per thousand or more is a matter of correspondence.

BULBLETS. Where bulbs are priced per 10, bulblets will be sold at \$.25 per package; the number of bulblets to be determined on the basis of the scarcity of variety. You will be treated liberally. Some varieties can be supplied by the quart or bushel.

TERMS. No order accepted for less than \$1 except locally. Price includes delivery if order amounts to \$2 or more. Cash with order up to \$5. A 25% deposit will hold larger orders until March 15th, balance due before shipping or bulbs will be forwarded by express collect.

KEY TO ORIGINATORS. A.—Austin; B.—Bill; Bt.—Betscher, C.—Coleman; D.—Diener; Es.—Ellis; F.—Fisher; Gf.—Groff; H.—Hoeg; K.—Kunderd; Kp.—Kemp; Ky.—Kelway; Kf.—Kirchoff; M.—Metzner; P.—Prestgard; Pf.—Pfitzer; U. B.—United Bulb; V.—Vilmorin.

Gladiolus in Mixture

Many people desire to purchase a collection which will produce fine blooms in a wide variety of color, but they do not wish to label and keep each variety separate. We do not grow mixtures but will make up such collections from our separately grown varieties as listed above. We will use at least 25 varieties in making up a mixture of 100 bulbs.

Priced Per 100

	No.1	No.2	No.3	No.4	No.5	No.6
SELECTED MIXTURE	\$3.60	\$3.40	\$3.00	\$2.00	\$1.25	\$0.75
EXTRA SELECTED MIXTURE	5.00	4.50	4.00	2.75	1.75	1.00

Exhibition Dahlias

We have grown dahlias for several years and we are recommending only those varieties which grow well in our climate. With the exception of Little Jewell and Mr. C. H. Dresselhuys they will grow to a diameter of 7 inches or more under field culture. With special attention some of them have produced 11 inch blooms. They all possess long stems suitable for cutting.

Prices are for single tubers delivered in good growing condition. If unsatisfactory, return at once and stock will be replaced or money refunded.

ADDA PATTERSON—H. C., large white, good stem -----	\$2.50
ALTAMOUNT—D., rose pink, long stem, grows ten feet high -----	2.50
AMUN RA—D., very fine, large coppery bronze -----	.75
CHAMPAGNE—D., chamois with pink suffusion -----	1.00
CHAS. STRATTON—D., large pale gold, tipped rose -----	1.00
CITY OF TRENTON—D., glowing tangerine -----	5.00
CITY OF LAWRENCE—H. D., rich sulphur yellow -----	.75
EASTERN STAR—D., saffron yellow, shaded gold -----	1.50
EDNA FERBER—S. C., coral, shaded gold, curled petals -----	3.00
EL DORADO—D., large golden yellow -----	1.00
ELLINOR VANDERVEER—D., satiny rose pink -----	.75
EMMA MARIE—D., pink with creamy center -----	1.00
GIANT RUBY—D., brilliant red, very good -----	.75
HELEN KELLAR—D., salmon rose, free bloomer -----	.60
JANE COWL—D., immense golden buff and apricot -----	7.50
JERSEY'S BEAUTY—D., salmon pink—standard by which others are judged -----	.75
JUDGE MAREAN—D., very fine, salmon and orange -----	.75
KALIF—C., scarlet, a fine old variety -----	.50
KITTY DUNLAP—D., American beauty rose color -----	.75

WIZARD OF OZ—D., salmon rose shading to yellow -----	1.00
WORLD'S BEST WHITE—D., large white -----	1.00
ONE EACH 12 DIFFERENT VARIETIES—our selection -----	5.00

Iris

We grow about 175 named varieties of iris including the best originations of French, English and American hybridizers.

These named varieties will be shipped only during July, August and September.

In the brief descriptions, the standards refer to the upright petals and the falls to the lower petals.
